Adopted December 12, 2017

Last Reviewed December 12, 2017

The Board is committed to protecting the confidentiality of student information obtained, created and/or maintained by CHPA. Student privacy and CHPA’s use of confidential student information are protected by federal and state law, including the Family Educational Rights and Privacy Act (FERPA) and the Student Data Transparency and Security Act (the Act). The Board directs CHPA staff to manage its student data privacy, protection, and security obligations in accordance with this policy and applicable law.

Definitions

“Student education records” are those records that relate directly to a student. Student education records may contain, but not necessarily be limited to, the following information: identifying data, academic work completed, level of achievement (grades, standardized achievement test scores), attendance data, scores on standardized intelligence, aptitude and psychological tests, interest inventory results, health and medical information, family background information, teacher or counselor ratings and observations, reports of serious or recurrent behavior patterns and Individualized Education Program (IEP).

“Student personal identifiable information” or “student PII” means information that, alone or in combination, personally identifies an individual student or the student’s parent or family, and that is collected, maintained, generated, or inferred by CHPA, either directly or through a school service, or by a school service contract provider or school service on-demand provider.

“Security breach” means the unauthorized disclosure of student education records or student PII by a third party.

The following terms used in this policy shall be as defined by the Act: “school service”, “school service contract provider” and “school service on-demand provider”.

Access, Collection and Sharing within CHPA

CHPA shall follow applicable law and Board policy in CHPA’s access to, collection and sharing of student education records.

CHPA employees shall ensure that confidential information in student education records is disclosed within CHPA only to officials who have a legitimate educational interest, in accordance with applicable law and Board policy.

Outsourcing and Disclosure to Third Parties

CHPA employees shall ensure that student education records are disclosed to persons and organizations outside CHPA only as authorized by applicable law and Board policy. The term “organizations outside CHPA” includes school service on-demand providers and school service contract providers.

Any contract between CHPA and a school service contract provider shall include the provisions required by the Act, including provisions that require the school service contract provider to safeguard the privacy and security of student PII and impose penalties on the school service contract provider for noncompliance with the contract.

In accordance with the Act, CHPA shall post the following on its website:

- A list of the school service contract providers that it contracts with and a copy of each contract; and
- To the extent practicable, a list of the school service on-demand providers that CHPA uses

Privacy and Security Standards

The security of student education records maintained by CHPA is a high priority. CHPA shall maintain an authentication and authorization process to track and annually audit the security and safeguarding of student education records.

Security Breach and Other Unauthorized Disclosure

Employees who disclose student education records in a manner inconsistent with applicable law and Board policy may be subject to disciplinary action, up to and including termination from employment. Any discipline imposed shall be in accordance with applicable law and Board policy.

Employee concerns about a possible security breach shall be reported immediately to the IT Coordinator. If the IT Coordinator is the person alleged to be responsible for the security breach, the staff member shall report the concern to the Executive Director.

When CHPA determines that a school service contract provider has committed a material breach of its contract with CHPA, and that such material breach involves the misuse or unauthorized release of student PII, CHPA shall follow this policy’s accompanying administrative procedure in addressing the material breach.

Within this policy or its accompanying regulation shall not prohibit or restrict CHPA from terminating its contract with the school service contract provider, as deemed appropriate by CHPA and in accordance with the contract and the Act.

Data Retention and Destruction

CHPA shall retain and destroy student education records in accordance with applicable law and Board policy.

Staff Training

CHPA shall provide periodic in-service trainings to appropriate employees to inform them of their obligations under applicable law and Board policy concerning the confidentiality of student education records.

Parent/Guardian Complaints

In accordance with this policy's accompanying regulation, a parent/guardian of CHPA student may file a written complaint with CHPA if the parent/guardian believes CHPA has failed to comply with the Act.

Parent/Guardian Requests to Amend Student Education Records

Parent/guardian requests to amend his or her child's education records shall be in accordance with CHPA's procedures governing access to and amendment of student education records under FERPA, applicable state law and Board policy.

Oversight, Audits and Review

The IT Coordinator shall be responsible for ensuring compliance with this policy and its required privacy and security standards.

CHPA's practices with respect to student data privacy and the implementation of this policy shall be periodically audited by the IT Coordinator or external evaluator.

A privacy and security audit shall be performed by CHPA on an annual basis. Such audit shall include a review of existing user access to and the security of student education records and student PII.

The IT Coordinator and/or Executive Director shall annually review this policy and accompanying regulation to ensure it remains current and adequate to protect the confidentiality of student education records in light of advances in data technology and dissemination. The IT Coordinator shall recommend revisions to this policy and/or accompanying regulation as deemed appropriate or necessary.

Compliance with Governing Law and Board Policy

CHPA shall comply with FERPA and its regulations, the Act, and other state and federal laws governing the confidentiality of student education records. CHPA shall be entitled to take all actions and exercise all options authorized under the law.

In the event this policy or accompanying regulation does not address a provision in applicable state or federal law, or is inconsistent with or in conflict with applicable state or federal law, the provisions of applicable state or federal law shall control.
