Title	BP 3370 Technology in the Classroom
Number	BP 3370
Status	Active
Legal	Chávez/Huerta K-12 Preparatory Academy Board of Directors BP 3350 Student Technology Use
Adopted	June 13, 2017
Last Reviewed	June 13, 2017

To promote educational excellence and prepare students for success in the 21st century, Chávez/Huerta K-12 Preparatory Academy (CHPA) provides its students with access to the school's network, servers, computers, hardware, software, communication systems and other technology devices that have the ability to connect to the Internet.

The Internet and electronic communications are fluid environments in which students may access materials and information from many sources, including some that may be harmful to students. While it is impossible to predict with certainty what information students might locate or come into contact with, CHPA shall take reasonable steps to protect students from accessing material and information via technology that is obscene, pornographic or otherwise harmful to minors.

Students shall take responsibility for their own use of technology – whether personally owned or provided by the school. While using personal or school technology on CHPA property, in school vehicles and at school-sponsored activities, students shall act in an appropriate manner and in accordance with CHPA Board policies and procedures, and applicable law.

It is the joint responsibility of school personnel and students' parent(s)/guardian(s) to educate students about their responsibilities and to establish expectations when students use or access school and personal technology.
