

Student Data Collected Beyond What CDE Requires

Chavez Huerta K-12 Preparatory Academy collects and utilizes other data beyond the requirements of the Colorado Department of Education. All data collection and utilization will follow federal and state laws including FERPA, COPPA, and HB 16-1423, which can be found in the Resources tab of our Data Privacy and Security page.

School data collected is not only utilized by CDE but some may be used for operational purposes such as emergency contact with parents/guardian, providing specific services to students, facilitating transportation, student safety, health services, student achievement, assessment, etc. Access to student data is restricted by specific roles assigned based on position and need for information, which require secure logins to access data. CHPA systems are protected by industry standard solutions, and such safeguards are audited and tested by independent experts.

Type of Data	Specific Data Collected beyond CDE requirements.	What needs does it serve?	Who provides/collects data and how often it's updated.
Student Demographic	Enrollment History Previous Academic Services Immigrant Status District Student ID number	State and Federal Funding, Compliance, Safety, Student Services, Notifications, Assessment, Academic Achievement	Parent Provided at enrollment, quarterly updates and ongoing
